Integration as of 31th of March 2022
"The mobility period must in any case be concluded no later than 30 March 2023"

IT IS MODIFIED AS FOLLOWS:
"The mobility period must in any case be concluded no later than **31th of May 2023"**

ART. 10 METHODS AND TERMS FOR SUBMITTING APPLICATION

The article at the paragraph:

"The selection and evaluation procedure, as per art. 12, will be carried out in three monthly periods, until the available resources are exhausted, as indicated below:

1 st evaluation: applications received via e-mail no later than 06 January 2022

2 nd evaluation: applications received via e-mail no later than 06 February 2022

3 rd evaluation: applications received via e-mail no later than 06 March 2022"

Applications received after the 06th of March 2022, which is the closing date of the Procedure, will not be taken into consideration for the purposes of the evaluation.

Applications received after the closure of the first evaluation period (06 January 2022) will be evaluated based on the availability of residual resources. We will promptly report through communication on the project website that the available resources have been exhausted with the consequent cancellation of the subsequent application evaluation period.

In view of the limited amount of the available resources, a timely submission of the application is recommended".

Integration as of 31th of March 2022

"The selection and evaluation procedure, as per art. 12, will be carried out in five periods, until the available resources are exhausted, as indicated below:

- *1 st evaluation: applications received via e-mail no later than 06 January 2022*
- *2 nd evaluation: applications received via e-mail no later than 06 February 2022*
- *3 rd evaluation: applications received via e-mail no later than 06 March 2022*
- *4 th evaluation: applications received via e-mail no later than 31 May 2022*
- *5 th evaluation: applications received via e-mail no later than 31 July 2022*

Applications received after the closure of the third evaluation period (31 march 2022) will be evaluated based on the availability of residual resources. We will promptly report through communication on the project website that the available resources have been exhausted with the consequent cancellation of the subsequent application evaluation period.

Applications received after the 31th of July 2022, which is the closing date of the Procedure, will be taken into consideration for the purposes of the evaluation, after the evaluation of all applications received by the deadline, and only in case of availability of residual resources.

In view of the limited amount of the available resources, a timely submission of the application is

recommended.

All the other provisions referred to in the Notice remain valid.
The aforementioned changes are subject to the approval of the extension of the project activities requested to the Managing Authority".

IT IS MODIFIED AND INTEGRATED AS FOLLOWS:

"The selection and evaluation procedure, as per art. 12, will be carried out in five windows, until the available resources are exhausted, as indicated below:

- *1 st evaluation: applications received via e-mail no later than 06 January 2022*
- *2 nd evaluation: applications received via e-mail no later than 06 February 2022*
- *3 rd evaluation: applications received via e-mail no later than 06 March 2022*
- *4 th evaluation: applications received via e-mail no later than 31 May 2022*
- *5 th evaluation: applications received via e-mail no later than 31 July 2022*
- ***6 th evaluation: applications received via e-mail after the aforementioned date and no later than 30th September 2022***

Applications received after 30 September 2022, the closing date of the Procedure, will be taken into consideration for the purposes of the evaluation, after the evaluation of all the applications received by the deadline, only and exclusively in the case of availability of residual resources.
Applications received after the closure of the fifth assessment window (31th of July 2022) will be assessed based on the availability of residual resources. We will promptly report through communication on the project website that the available resources have been exhausted with the consequent cancellation of the subsequent application windows.
In consideration of the available resources, a timely submission of the application is recommended".

All other provisions and provisions referred to in the Notice remain valid.
The aforementioned changes are subject to the granting of the extension of the project activities to 30/06/2023 requested by the Managing Authority
